SECRET CAMPER HIDING OUT IN B-9

A secret camper, who did not appear on any rosters or class lists, was discovered hiding out in B-9 for the last two weeks. His name is Dennis Rodriguez Hallock, and only the campers and counselors in that cabin were aware of his existence – until now.

"He's my puppet," says Colton Hallock. "He's only about a year old at the moment, but he looks like he's 10ish. He came from a website. I think it's called sillypuppets.com. I got him on my eleventh birthday."

But Dennis has been causing trouble. According to Jacob Mullin, "Dennis can be angry because we always lock him up in a cage. He jumps around, he goes like in everyone's bed, he starts like making noises. Sometimes he'd wake us up at 2 am."

Zachary Dorf adds, "Dennis at night sometimes wakes up and start dancing on our table. He's out for revenge."

WE'RE GETTING A COW (OR A BULL)

Annie revealed that Camp Walden is getting a cow for the farm. "We are going to keep this cow for years," she says. "It's the camp cow." Although technically, since it's a male, it's a bull. A bull calf. It came from a farm in Petosky. Campers will be able to play with it and pet it and help take care of it and watch it grow. "We're open to suggestions for a name," Annie says.

"A bird does not sing because it has an answer. It sings because it has a song."
Chinese proverb

GOODBYE

Two-Week Campers

Have a great rest of the summer!

Two-week campers are going home today, but a bunch of new two-week and five-week campers are coming in.

REGISTRATION TODAY FOR NEW A/B ACTIVITIES

Today all 4-week campers will sign up for the classes they want to take for the next two weeks. Each camper makes two schedules: one for A-Day and one for B-Day. Schedules alternate each day.

Units 3 and 4 will get to register first in the mess hall this time, and Units 1 and 2 will register second.

All campers should use their A/B menu to mark a first and second choice for each period. Listen to the bells to find out when to come down to the mess hall. *If you were put on a waiting list because the class you wanted was full last time, please be sure to go to that activity's registration table to confirm that you still want to be in the class.*

Counselors, please check the sheets posted by the mess hall doors to see if you've been assigned to work at registration. If so, you should come down to help set up.

KEEP CAMP WALDEN BEAUTIFUL

If you see a piece of garbage on the ground,
please pick it up.

SIGN UP FOR WALDEN POND CLASS

Go around camp and gather news and Happy-Grams for the Pond, play games, write articles, draw cartoons, and have a lot of fun!

Walden Pond is offered 1A or 1B

HORSE OF THE WEEK

Gypsy is HOTW2. She's a past winner who says, "Watch out, Hot Shot, I'm coming for you!" Ellie Milstein, her most recent rider, says she's smooth and easy to ride.

CAMPERS VISIT FISH HATCHERY

Peggy Rose, Euan Irons, and Martin Beek took campers in the Hikes and Trips class to the Oden State Fish Hatchery last Thursday. This is a place where fish are bred and raised to help populate lakes and rivers in Michigan. Yes, they actually grow fish to put in the lakes. This compensates for habitat loss and helps native species recover after declines caused by overfishing or invasive species.

Campers saw how eggs were separated out (the good ones are pink, the bad ones are white), saw two-inch and three-inch varieties of brown trout and rainbow trout, fed fish in a pond, and hiked around. The campers were George Mandel, Nash Lerner, Krishna Aluri, Owen May-Nolker, and Elan Kanter.

Historically, walleye in Long Lake at Camp Walden were heavily stocked from fish hatcheries, though the lake is not actively stocked with hatchery fish today.

B-9 TELLS SCARY STORIES

According to Zachary Dorf, B-9 loves telling scary stories in the evenings. "Every night we do scary stories," he says. "We started with 'The Lady With the Black Coat.' We sit down in a circle with only flashlights on. Most of them are based on movies, but we add a little twist to it.

Zach and Colton have been telling the best ones. "'Skin' was a really good one," Zach says. "Colton made it up. It's about a boy and his best friend started acting differently. Pets started dying, and a creature started growing in the friend's skin."

Could this be inspired by ... Dennis?

FACTS ABOUT MACKINAC ISLAND

- ⌘ Long before Europeans came to Mackinac Island it was an Indian burial ground.
- ⌘ The first car brought to Mackinac Island in 1898 frightened the horses, so all automobiles were banned from the Island since.
- ⌘ About 600 people live on Mackinac Island in the winter, and when it gets cold enough they can walk across the ice to the mainland.
- ⌘ About 90 children attend the public school year round, about 60% of which are of Native American descent.
- ⌘ The road circulating the Island is the only state highway that where motor vehicles are generally prohibited and the only state highway that has no beginning and no end.
- ⌘ Bicycling the entire shoreline is about 8.2 miles.
- ⌘ There are more than 70 miles of trails for hiking, biking, and horseback riding throughout the island.
- ⌘ No camping is allowed anywhere on the island because nearly all of it is protected parkland or privately owned.
- ⌘ The name "Mackinac" comes from the Ojibwe word *Michilimackinac*, often interpreted as "Great Turtle," because the island resembles a turtle when viewed from the water.
- ⌘ During winter, when ice conditions permit, an ice bridge sometimes forms between the island and the mainland. Residents may travel across it by snowmobile, bicycle, or on foot, though ferries and aircraft are the primary means of access.
- ⌘ Mackinac Island imports more than 100 tons of sugar each summer to create its fudge.
- ⌘ Grand Hotel, opened in 1887, is famous for having the world's longest front porch, stretching approximately 660 feet.
- ⌘ The swimming pool at Grand Hotel was built for Esther Williams for the 1946 movie *This Time For Keeps*.
- ⌘ Mackinac Island was featured in the movie *Somewhere in Time* starring Christopher Reeve and Jane Seymour.

PEGGY'S FOURTH OF JULY OVERALLS

Did you notice the red and white striped overalls that Peggy wore on the Fourth of July? She originally got them for America's Bicentennial Celebration (200th birthday) in 1976, which means she's been wearing them for 50 years (although mainly on the Fourth of July and sometimes for Christmas when she dresses as a candy cane). Fifty years and they still fit!

PROTECT YOUR FEET

In order to avoid foot injuries at camp, we are asking that all campers wear CLOSED-TOE shoes after 8:00 pm (i.e. for evening program), unless your Unit Programmer says differently. Closed-toe shoes should also be worn any time you are out of camp, (i.e. nature trips, Mackinac Island), other than going to a beach.

GOT ARTWORK?

The Pond would love to display your drawings or cartoons for the whole camp to see!

Drawings must be in black ink on white paper in order for them to show up in the Pond. Black and white only. Large drawings will be reduced). Sorry, no photos. They don't print clearly.

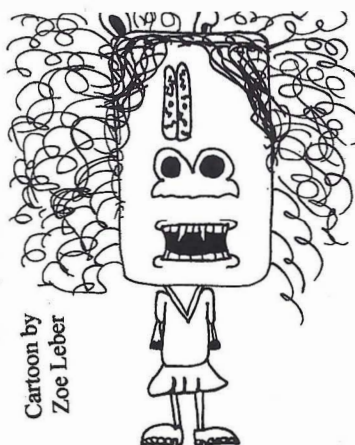

YES: Line drawings, nature drawings, cartoons, caricatures, doodles, graphic designs.

NO: Color pictures, paintings, photos.

B-15 FOUND THE PICTURED ROCK!

Congratulations to Jude Rosenzweig and B-15! They found the moon-shaped Pictured Rock on Tuesday morning before going to Mackinac. "I found it with my buddies Levi VanderHart and Evan Foxx," Jude says. "It was a really good time searching and it's a really big, monumental moment for B-15."

This was a tough search lasting two weeks and 14 clues. The Rock was hidden at the bottom of a tree stump outside Walmart. A lot of people were looking in the right area, but the Rock was well hidden as usual, and B-15 finally discovered where it was. They win a trip to Dairy Queen! The next Pictured Rock contest will be during second session.

5 QUESTIONS WITH AVERY SUTKER

- 1) Where is the best place to hang out at camp?
Probably the playground, because there are a lot of places to sit and contemplate.
- 2) What color should the office be painted?
Purple, because that's my favorite color.
- 3) Have you ever pulled a prank on someone?
Yes. Actually at camp this year. It was me and Elkie in our cabin, and we went into G-9, and our while cabin was singing "My Little Pony."
- 4) Would you eat green eggs and ham?
No. That doesn't sound appetizing.
- 5) Do you have any pets?
Yes, I have a dog named Lily. She's a cavapoo and she's very cute. She's very small, and she's married to Ellie's dog.

DEAR ED...

Dear Ed, How many countries have sent campers and staff to Walden since its creation? Retcher

Dear Retcher, Quite a lot! Ed asked Liz who estimated we've had people from more than 30 countries here since 1959. Ed

Dear Ed, Who has come the farthest distance away from camp? Maria Olson

Dear Maria, this summer it's probably Bryn from New Zealand. New Zealand is between 8,000-8,500 miles from Michigan. Ed

Dear Ed, Who has been here at camp the longest? Cami

Liz spent the first 22 summers of her life (ever since she was a baby) at Walden since her parents ran the camp. Then she moved to Texas where she became a journalist and met Scott but returned to Walden in 2006 for another 21 years. But Boz and maybe one or two other people still spent more summers here total than Liz did. Ed

Dear Ed, How did camp's A/B system come to be? Nathan Zysk

Dear Ed, Even Liz can't remember when that started, but the it probably began to give kids the opportunity to focus on activities they liked best, as opposed to always doing activities with their own cabins whether they liked them or not, as some camps do. Ed

Dear Ed, How come only oceans have huge waves? Juniper Jungers and Edith Shokair

Dear Juniper and Edith, Huge waves are more common in oceans mainly because there is more and deeper water and longer distances for the wind to blow, meaning more opportunity for waves to build up. However, the great Lakes sometimes gets huge waves too, especially during storms. Ed

Dear Ed, Why does my bug spray not work, even though I'm wearing it every day? I'm still getting lots of bug bites. Innocent Victim of Mosquitoes

Dear Innocent Victim, Here are some possible reasons: the active ingredient might not be effective enough, it may have washed off or worn off over time, it may be expired, or you might not be applying enough. Come to the office and see if they can help you get a stronger supply. Ed

Dear Ed, What activities did they used to have at camp and why were they taken away? Alexa Feinstein

Dear Alexa, We offered basket weaving and archeology (as the song goes), as well as Spin Art, Torpedo rides (a cross between tubing and horseback riding), trampoline, giant sculpture making, computer games, and power boating (you could get your boat driver's license if you were at least 12 years old), among others. Over the years, some activities changed due to equipment availability, staff skills, and new ideas. Ed

Dear Ed, Why is the water clearer in the morning on Long Lake? Anabelle Photenhauer

Dear Anabelle, Boz says probably because there has not been as much boat traffic in the morning to stir things up. Ed

It's time once again for a Counselor Hunt! Here's how it works: Staff members will find places to hide around camp where they don't think anyone can find them. Then, a few minutes later, all the campers will rush into the woods and surrounding areas to look for them. Think of it as a living Pictured Rock hunt, especially if the counselors have tattoos. There won't be any clues, but there will be plenty of people to capture.

Each counselor that's found will be worth a certain number of points. There will also be mystery members who could earn you a large number of bonus points or cause you to lose points. The staff members that are captured will be asked to take parts in various skits at the counselor show in the evening.

Your unit programmer or team captain will give you more information later.

CAMP TANUGA IS VISITING TODAY

YOUNGER CAMPERS WILL COMPETE IN ATHLETICS

Camp Tanuga, a summer camp in Kalkaska, Michigan, is coming to Walden today to compete in athletics. Campers from Units 1 and 2 will play soccer, pickleball, basketball (knock-out, horse, or pig), volleyball/newcomb, kickball, and maybe ga-ga ball. There will also be a staff basketball game during rest hour or punch and cookies. All of this is weather permitting.

Listen to messages or check the schedule to find out exact times of the games. If you want to watch, remember you must check it at your regular A/B activity first.

- Scientists using the **James Webb Space Telescope** have found signs of a **mysterious molecule** in the atmospheres of both Pluto and Saturn's moon **Titan**. They don't yet know what it is, which makes it an **exciting puzzle** for astronomers to solve.
- **China's giant tree-planting project** reached another milestone. Researchers reported that about **66 billion trees** have now been planted, and many are growing faster than expected, helping scientists study forests and ecosystems.
- One of the biggest entertainment stories this week is that **LEGO** announced its first **collection based on Olivia Rodrigo**. The collection includes five sets inspired by her music and style, including a moon-shaped concert stage that doubles as a record player, a guitar display model, a vinyl record set, a flower bouquet, and a secret storage set. Meanwhile, fans are continuing to talk about her third album, *You Seem Pretty Sad for a Girl So in Love*. Songs from the album are inspiring fan covers, dance videos, and reaction videos across social media.
- **Celebrity fashion** is inspiring summer trends. Outfits worn by stars like Zendaya, Olivia Rodrigo, and Charli XCX are influencing **colorful summer styles**, from sporty looks to bright accessories. Colorful **"Brat Summer"** fashion remains a trend as bright green colors, sporty outfits, and playful accessories continue influencing teen fashion.
- **Dance trends and movie clips** continue to **dominate social media**. Short clips from new movies, TV shows, and songs are fueling the latest dance challenges, reaction videos, and fan edits across popular social platforms, making entertainment trends spread faster than ever.
- **Gamers** have **new titles** to explore. This week's biggest releases include *College Football 27* and a new *Sword Art Online* game, both generating lots of excitement online.
- **Baby animals** are becoming **social media stars** as zoos around the world are introducing **newborn pandas, penguins, otters, and giraffes** through livestreams and videos.
- A **giant rubber duck festival** attracted huge crowds in Buffalo, New York. Mama Duck stands about 61 feet (19 meters) tall, weighs around 15½ tons, and holds roughly 133,000 cubic feet of air when fully inflated. It's about as tall as a six-story building.

CABIN PHOTOS FOR THE YEARBOOK

may or may not be taken today, but if they are, please keep these thing in mind:

Sit in nice neat rows
Arrange yourselves with taller people in back
Look at the camera and smile
Follow any other instructions from the photographer

Listen to messages to find out I, when, and where photos will be taken.

PHANTOM REMINDERS

Trying to figure out who the Phantom is? It can be tricky, and you're not going to get any extra clues by reading this. But here are a few things to keep in mind: The Phantom can be anyone in camp (including campers, staff, administrators, and official visitors). It could be you because you wouldn't even know unless someone guessed you. All the clues must fit together. Each cabin can make one guess per day. Happy guessing!

THE CAST OF BEETLEJUICE:

You all are doing an amazing job! We are so hard of your hard work!

B-8 KIDS TRADEMARK CHIPPY™

By Eddie Ryke

Last year the G-5 kids Eddie Ryke and Jacob Lafer found a chipmunk and named him Chippy. Those G-5 kids are now in B-8, and this year a B-7 kid named a chipmunk Chippy. We told the kid, and he knows he did not make up Chippy. But to avoid future confusion, the G-5(2025)/B-8(2026) kids are trademarking the name Chippy™, as G-5(2025)/B-8(2026) owned it, so now it is legally owned by G-5(2025)/B-8(2026).

TUNE INTO WLDN

WALDEN'S OWN RADIO STATION

Did you know Walden has its own radio station that is broadcast over the air and you can listen to it on any radio? Tune into **WLDN 93.1 FM** to hear cool music at all hours of the day and night. Music plays continuously! Mark Goodine describes it as "the widest mix in northern Michigan," including oldies, hip hop, and current pop hits.

Campers even put on live shows during some activity periods. Camper DJ's make music selections, take requests, send out dedications, and do interviews with staff. See Mark Goodine for more information.
